

Spring Magic® Program

Tap into gardeners' enthusiasm for early spring color by setting up displays with beautiful, cold-tolerant flowering and component plants. And draw your customers' attention to those displays with Spring Magic banners, benchtape, and brochures from Proven Winners. The bright colors and lively textures of early season varieties after the gray of winter creates sales opportunities for you. Capitalize on it by ordering Spring Magic POP and contacting your propagator to learn what varieties they recommend for early spring sales in your region.

5' x 3' Spring Magic Horizontal Banner

To order Spring Magic banners, benchtape or brochures, go to shop.provenwinners.com

Summer Celebrations™ Program

When spring heats up into summer, use our Summer Celebrations POP to direct your customers to the many top-performing, heat-loving Proven Winners plants in your garden center. The banners and benchtape catch their eye. And when you've got their attention, you build more sales opportunities that can last all summer long.

Fall Magic® Program

In the fall, gardeners are ready to rejuvenate their outdoor living space from the toll taken by the summer heat. Make it easy for them by creating Fall Magic displays in your garden center. Choose from Proven Winners complete line of frost-tolerant flowering and foliage plants, complement them with traditional fall favorites, like mums and kale, and put it all together under a Fall Magic banner. Add benchtape and brochures, and you've got a fall sales winner. Contact your propagator for recommendations on what Proven Winners plants perform best in your region in the fall.

Plants That Are NOT Recommended for Use in Hanging Baskets

- Artist® Ageratum
- Angelface® Angelonia
- Slightly Strawberry™ Anisodonta
- Madly™ Aubrieta
- All Argyranthemum
- Señorita Rosalita® Cleome
- Spirit™ Cleome
- ColorBlaze® Coleus
- All Euphorbia except Diamond Frost®
- Graceful Grasses®
- Tuscan Sun Heliopsis
- Simply Scentsational™ Heliotropium
- Absolutely Amethyst™ Iberis
- Broadway Lights™ and Daisy May™ Leucanthemum
- Garnet Brocade™ Sedum
- Soprano® Osteospermum except Compact Purple

Growing Tips and Information

Recommended Plant and Grow Combinations

2 Variety Combos

Supertunia® Minis Petunia / Superbells® Calibrachoa

Superbena® Verbena / Illusion™ or Sweet Caroline Ipomoea

Lucia™ Lobelia / Sunsatia® Nemesia

Symphony Osteospermum / Supertunia® Petunia (*day-length neutral varieties*)

Nemesia fruticans / Soprano® Osteospermum

Babylon® Verbena / Flying Colors® Diascia

Supertunia® Pretty Much Picasso™ / Illusion™ or Sweet Caroline Ipomoea

3 Variety Combos

Supertunia® Petunia / Symphony Osteospermum / Sunsatia® Nemesia

Flying Colors® Diascia / Nemesia fruticans / Soprano® Osteospermum

Superbena® Verbena / Intensia® Phlox / Helichrysum

Superbells® Calibrachoa / Supertunia® Petunia / Superbena® Verbena

Snow Princess™ Lobularia / Supertunia® Petunia / Illusion™ or Sweet Caroline Ipomoea

Proper Crop Time

Avoid giving baskets too much crop time. For 10-inch baskets, 8 to 10 weeks is ideal; for 12-inch baskets, 10 to 12 weeks is best.

The Word on Fertilizer

Remember to have your water tested before fertilizing to ensure that you are making the right fertilizer choice. In most cases, constant 200 ppm N is the best option. Slow release can be used to help in outdoor growing plans.

Perform a pre-season water test to select fertilizer and a random soil test at time of hanging

Filling Out the Container

Use 4 to 6 liners for 10-inch to 12-inch containers and 6 to 8 liners for 12-inch to 18-inch containers. Using fewer liners will mean additional crop time or containers that do not fill out properly.

More Liners = Blooms²

Hangin' On

Do not hang baskets under gutters. For best results, baskets need space, good air movement, and adequate light, and they should not be dripped on heavily.

H₂O

Proper Watering for Hanging Baskets

- Make sure each basket has drainage.
- Remember that coco fiber, moss, and terra cotta baskets will dry out much faster than plastic.
- Age of plant and size of basket dictate water needs. When young and rooted in, water two times per week; in favorable spring weather water once or twice a day in the greenhouse.
- Water until water comes out of the bottom of the basket. This helps to leach out salt build-up and to maintain proper EC levels.
- The larger the basket, the more soil volume so the less often it needs to be watered.
- If you are using a water retention soil additive, be sure to control water early in the basket cycle.

Did You Know?

You can access specific growing information on any Proven Winners plant by visiting the Professional Growers section of our website at www.provenwinners.com. Our entire Cultural Guide is also available online.

www.provenwinners.com

Growing Cold or Warm?

Do not water containers heavily at the time of planting and then move to a cold environment. For best results, water lightly and more often and grow warm until rooted into the container. When well-rooted, the plants can often be grown cooler.

Finishing Touches

- Apply Florel® to most baskets 2 weeks after planting and then hang. Do not apply Florel® to Torenia.
- A pinch 3 to 4 weeks after planting bulks up the plants and encourages branching.
- If baskets are going into warmer poly areas, it is best to spray 10 ppm of Sumagic® 2 weeks after planting and just before hanging.
- When plants are 3/4 their full size, use a Bonzi® drench (1-3 ppm in North; 2-5 ppm in Central; and 5 ppm in South) to help baskets hold their size and shape in the greenhouse and at retail. Do not use on Diamond Frost®.
- Cool temperatures can be an effective growth regulator.

Strong Roots

Once the liner is established, allow the soil surface to dry before watering again. This forces the roots to follow the moisture down in the container building a strong root system.

Cultural Information and Growing Tips

To produce the highest quality plant material, growers must have detailed, specific crop culture. But to organize and sort the necessary information can be a challenge. What follows is a new, user-friendly yet comprehensive format developed by our propagators. Their system uses series charts that categorize the plant material according to basic environmental needs – pH, growing temperature, and fertilization. Besides enabling you to set up several different environments and group plants with similar basic requirements, you now have a single source of information about all Proven Winners® and Proven Selections® varieties. While you will still want to refer to specific crop culture for detailed information, together these two references should help you produce the best plants possible.

Proven Winners® Annuals and Graceful Grasses®

Temp	A pH 5.5 - 5.8	B pH 5.8 - 6.2	C pH 6.0 - 6.5
A 55°-65° F	Sundaze® Bracteantha*, Superbells® Calibrachoa, Sunsatia® and other Nemesia, Supertunia® and Pretty Much Picasso™ Petunia†, and Intensia® Phlox	Argyranthemum, Bidens, Flying Colors® and Flirtation® Diascia, Symphony and Soprano® Osteospermum	Snow Princess™ Lobularia and Augusta™ Blue Skies Nierembergia

† 200-300 CLF

Proven Winners® Perennials

Temp	A pH 5.5 - 5.8	B pH 5.8 - 6.2	C pH 6.0 - 6.5
A 55°-65° F		Madly™ Aubrieta, Absolutely Amethyst™ Iberis, Daisy May™ Leucanthemum, Karalee® and Stratosphere™ Gaura•, Lemon Drop® Oenothera•, Garnet Brocade Sedum	Pink Chablis® Lamium
B 65°-72° F	'Tuscan Sun' Heliopsis	Euphorbia (not Diamond Frost), Dolce® Heuchera, Broadway Lights™ Leucanthemum	

Fertilizer: 150-200 Constant Liquid Feed (CLF)

*100-150 CLF

•Tender Perennial

Culture Notes and Groups:

pH:

A: pH 5.5-5.8

B: pH 5.8-6.2

C: pH 6.0-6.5

EC:

A: < .6

B: .6-.9

C: 1.0-2.0

Well-Balanced Fertilizer

N-P-K, 2:1:1.5 with adequate amounts of micronutrients

Low: 100-150 ppm Constant Liquid Feed

Medium: 150-200 ppm Constant Liquid Feed

High: 200-300 ppm Constant Liquid Feed

Fertilizer Disclaimer:

It is a good practice to clear water leach once every 3-4 times you water to lower soluble salt levels in the media. EC should also be monitored using weekly EC measurements.

Growing Temperatures:

(Growing roots to edge of pot/growing on and bulking plants)

A: 65-72°/55-65° F

B: 65-72°/65-72° F

C: 65-72°/70-75° F

Night temperatures should be run 5° F lower than day temperatures

Holding Temperatures:

(For toning crops and/or for when you have to hold the crop when it is ready to go)

A: 40-50° F (outdoors)

B: 50-60° F

C: Maintain Growing Temperatures

Light Levels:

High: Full sun crops need very high, bright light

Moderate: Sun to partial shade crops, High to moderate light

Low: Partial to full shade crops, Moderate to low light

Moisture Regimes:

Transplant:

Water lightly to maintain moisture level within root zone until roots reach the side of the finished container. Once roots are developed to the side of the pot, see finish watering regime.

Finish Watering Regimes:

A: Dry to Moderate: Water thoroughly without over-saturating, keep moist during root development, allow soil surface to dry completely before watering after the crop is rooted to the edge of the pot.

B: Moderate to Moist: Water thoroughly without over-saturating, keep moist but not wet throughout entire growth cycle.

C: Moist to Wet: Water thoroughly and keep moisture constant throughout entire growth cycle.

Plants Per Pot (PPP):

Standard:

4-5": 1 ppp

6": 1-2 ppp

Gallon: 1-3 ppp

8": 3 ppp

10-12": 3-5 ppp

More cuttings per pot will yield faster finishing times.

The higher light and temperatures experienced with summer production will dramatically reduce crop times.

Soil Mix for container growing:

Use a high-quality professional grade soil mix that is adjusted to work with your water quality and growing style to help manage pH and water control.

Use a well-drained, high-quality professional grade soil mix. A peat-lite based soil or equivalent that gives you 60% organic matter and 40% secondary aggregates such as perlite, rock-wool, coir, and/or bark will provide proper soil porosity (well-drained soil).

Growth Regulator Disclaimer:

All PGR rates should be trialed by each individual grower before applications are made to entire crop to ensure desired results. All rates are given as a spray unless otherwise stated. Summer production may require higher PGR rates when crops are grown indoors. Proven Winners and its affiliates are not responsible for misapplication or misuse of these products. Check manufacturers' labels for approved rates and usage recommendations.

Pest Management:

A weekly scouting program is suggested. Monitor for common greenhouse pests. Treat accordingly, using label instructions. Be sure to rotate chemical classes to guard against development of resistance to chemicals.

Let a Proven Winners Roadshow® Put You on the Fast Track

By working together, we can increase your profits and achieve success. The first step is for you to learn about our products and programs – and for us to learn about your business. Last year's Roadshows set a new attendance record, so we urge you to register early.

This year, among the topics to be presented by our traveling team of marketers, horticulturists, and retail experts are:

- New Proven Winners Varieties and Programs
- Cultural Tips
- Proven Winners ColorChoice® Flowering Shrubs
- Proven Winners Perennials
- Pricing Strategies
- Judy Sharpton on Creating Destinations, Merchandising, and Store Layouts

Who should attend:

- Growers
- Garden Center Managers and Staff
- Retailers
- Broker Reps

All Proven Winners Roadshows are from 8:30 a.m. to 3:30 p.m. Registration is free and includes a complimentary continental breakfast and sit-down lunch. Those making reservations must provide a credit card number to secure a seat for the Roadshow and for lunch. If a person who has made a reservation attends, their credit card will not be charged. However, Proven Winners will charge no-shows \$25 (US) per person.

For more information or to register call **877-895-8138** toll-free or visit provenwinners.com.

2010 Roadshow Information

Salt Lake City Roadshow

October 5, 2010
Salt Lake City Marriott Downtown
75 South West Temple, Salt Lake City, UT 84101

Salt Lake City Grower University

October 6, 2010
Salt Lake City Marriott Downtown
75 South West Temple, Salt Lake City, UT 84101

Boston Roadshow
