

# ANGELFACE®

*Angelonia hybrids*

ANGELFACE® Dresden Blue  
*Angelonia hybrid* \*Ansky USPP17155 Can3283

ANGELFACE® White  
*Angelonia hybrid* \*Anwhitini USPP19866 CanPBRAF

Angelface varieties are prized as vertical accent plants everywhere. Undoubtedly the finest Angelonia on the market, Angelface varieties are semi-upright with a good branching habit, have extra large, brilliantly colored blooms, and thrive in hot, humid conditions. These beauties make the perfect summer gallons.

**Growing Tips:**

Self-cleaning, no deadheading necessary.  
Grow under warm conditions. 60° F. or higher.  
Preventative drench with Subdue Maxx, Cleary's  
Biweekly drench with S.T.E.M.

**Exposure:** Full sun

**Height:** 18-24"

**Spacing:** 12-14"

**Hardy Temp:** 30°F (-1°C)

**Uses:**

Use in combinations, window boxes  
and landscaping.

**Features:**

Blooms all season; heat and drought tolerant  
plants; grape-scented foliage; low maintenance.  
Deer resistant.

Including: Superior Rating, Disney; Top Performer, Ohio State; Excellent Rating, Boerner Botanical Garden, Milwaukee, Wisconsin; Best of the Best, University of Georgia; Best Varieties, Penn State

**Growing Tips for ANGELFACE®**

- Requires high light in production.
- Needs 150-250 ppm fertilizer for optimal growth.
- Warm and slightly dry conditions after transplanting speeds root-in and growth.

**Additional Culture Information for ANGELFACE®**

- pH/EC: 5.8 - 6.2 / .6 - .9
- Growing Temperature: 65-72°/70-75°
- Holding Temperature: 60-65°
- Water Requirements: Moderate to Moist
- Planting and Timing: Late Spring through Summer Finish. Standard Plants Per Pot.
- Finish Times in Weeks: For 4-5", 5-7; for 6"/gallon, 7-8; for 8", 7-9; for 10-12", 10-14
- Spring Outdoor Finish: Do not finish outside

**Notes:**

Pinch 6" or larger pots at transplant for large plugs, 2 weeks after transplant for smaller pots. Florel® causes tip burn and distorted growth. Sumagic® is effective (2-5 ppm), but other growth regulators can delay flowering.
