

COLORBLAZE®

Solenostemon scutellarioides (Coleus)

COLORBLAZE® Kingswood Torch
Solenostemon scutellarioides

With vibrant color and exceptional performance, the ColorBlaze collection of Coleus is a must-have for your spring line-up. These seven foliage plants are bold, versatile, easy to grow, and extremely popular with gardeners. All are late-flowering varieties that hold their form throughout the season. They are tolerant of varying light conditions and are among the fastest-selling plants in any program.

Growing Tips:

Many people feel that Coleus look best before they flower. To keep foliage in top shape, pinch off the blooms as they appear.

Exposure: Sun or shade

Height: See reverse

Spacing: 12-18"

Hardy Temp: 35°F (2°C)

Uses:

Use in beds, containers, and combinations.

Features:

Attracts hummingbirds; deer resistant.

Ohio State; Leader of the
Pack, North Carolina State;
Top Performer, Kansas State

Growing Tips for COLORBLAZE®

- Establish in a warm environment.
Plants subject to chilling may be stunted.
- Needs 150-200 ppm fertilizer for optimal growth.
- One to two pinches can be used to increase branching and for shaping. For small pot sizes, this may not be necessary; larger pots will probably require pinching. Florel® can increase branching and reduce flowering. Cycocel/B-9 tank mix or Sumagic® spray at 3-5 ppm will help control growth if needed.
- Watch for mealy bugs.

Additional Culture Information for COLORBLAZE®

pH/EC: 6.0 - 6.5 / 0.6 - 0.9
 Growing Temperature: 65-72°/65-72°
 Holding Temperature: 50-60° outdoors
 Water Requirements: Moderate to High
 Planting and Timing: Spring through Summer Finish.
 Standard Plants Per Pot.
 Finish Times in Weeks: For 4-5", 5-6; for 6"/gallon, 6-8;
 for 8", 8-10; for 10-12", 10-12
 Spring Outdoor Finish: Do not finish outside

Note:

Check for downy mildew on green varieties. Apply higher K on the end of the crop to harden out foliage.
