At Walters Gardens, Inc., we often challenge our hybridizers to come up with the fantastic plants we dream up and seemly like magic, they come through for us! There's certainly a little magic in this new Veronica.

**HEIGHT:** 16-20in

**SPREAD:** 12in

**BLOOM TIME:**  
Early - Midsummer

**HARDINESS:** Z4-8

**AVAILABLE SIZES:**

- 72ct plugs in Summer 2011
- #1 Grade bare root in Fall 2011

Incredibly long, violet purple wands of brilliant color comprise the top  $\frac{2}{3}$  of 'Hocus Pocus', much larger than any comparable variety. It is easy to pick out from a distance when driving by our trial gardens, even when we're driving a little too fast!

This plant really has everything we could ask for in a Veronica: incredibly showy flowers, a uniform habit, clean foliage, and branched flowers which result in a longer bloom time. This one is hard to top!
