

# Baptisia DECADENCE™ 'Blueberry Sundae' PPAF (False Indigo)

Deep indigo blue flowers much more vibrant than *B. australis* and a perfect plant habit are the key features of this new variety. An excellent floral display occurs in late spring to early summer.

The deep blue-green foliage forms a more compact, upright mound to 3ft tall at maturity. 'Blueberry Sundae' is a vigorous grower and the foliage looks great all summer. Ornamental seed pods extend the season of interest into fall.
