

Gypsophila p. FESTIVAL STAR™ (‘Danfestar’ PPI4818)

A new look in Gypsophila! We are incredibly impressed with the compact, tightly mounded habit of this variety of Baby’s Breath. The plants remain very tidy and uniform over the season, making great garden plants.

Dense sprays of pure white flowers are produced on relatively short stems above the grey-green foliage, though they are still long enough for cutting for small posies. This is also an incredibly long blooming selection, flowering from late spring into fall.

HEIGHT: 12-18in

SPREAD: 16-24in

BLOOM TIME:
Late Spring -
Early Fall

HARDINESS: Z3-9

AVAILABLE SIZES:

- 72ct plugs for Summer 2011
- #1 Grade bare root for Fall 2011
