

# Heliopsis *h.* 'Tuscan Sun' PP18763 (False Sunflower)

This beautiful and carefree native cultivar offers a more compact habit and good disease resistance compared to other varieties of Heliopsis.

Bright golden yellow, daisy-like flowers with an orange-gold button center are produced on strong stems from mid through late summer atop the deep green foliage. It provides a brilliant beacon of color in the landscape during the hottest months of summer. Be sure to plant a few extra for your fresh bouquets!
