

Hemerocallis 'Nosferatu' (Daylily)

Similar to the highly regarded daylily 'Bela Lugosi', this variety offers a shorter height, fragrant blossoms, and more prominent veining in the oval shaped petals.

Large 6", shimmering dark purple, very sun-fast flowers with a char-treuse throat and pie crust ruffled petals are produced midseason.

A high bud count on well-branched scapes ensures many weeks of bloom.

Semi-evergreen tetraploid.

HEIGHT: 26in

SPREAD: 18-24in

BLOOM TIME:
Midsummer

HARDINESS: Z3-9

AVAILABLE SIZES:
#1 Grade bare root
in Summer 2011
