

Hemerocallis

'Siloam Peony Display'

(Daylily)

Like a bouquet of peonies, this lovely daylily produces an elegant display of fully double, peach colored, diamond dusted blossoms with ruffled petals in midsummer and then again later in the season.

The fragrant blooms measure up to 6 inches across and have a rose blush band near the center of the flower. This cultivar is an extended bloomer, so the flowers remain open for at least 16 hours. Truly unique!

Dormant diploid.
