

Hibiscus SUMMERIFIC™ 'Berrylicious' PPAF (Rose Mallow)

Developed by Walters Gardens, Inc. hybridizer Clarence Falstad, this complex hybrid is an improvement over 'Fantasia' in flower and habit.

Huge 8-9in, mauve lavender blossoms with a deep strawberry red eye have attractively ruffled, overlapping petals. They are produced on all sides of the dense, bushy, rounded clump of thick, bright green, maple-like leaves.

This Hibiscus is a very floriferous indeterminate bloomer, so there are buds at many nodes up the stems rather than just at the tips. The result is a much longer season of bloom and flowers that cover all sides of the plant rather than just the top.

'Berrylicious' makes a fantastic large specimen plant that will steal the show from mid through late summer.

HEIGHT: 4½-5ft

SPREAD: 4½-5ft

BLOOM TIME:
Midsummer-
Late Summer

HARDINESS: Z4-9

AVAILABLE SIZES:
• #1 Grade bare root
and 72ct plugs for
Spring 2012
