

Hosta 'Seducer' PPAF

This showy hosta from hybridizer Stuart Asch shares similar traits with 'Déjà Blu', but is much larger and makes an interesting specimen in the landscape.

The large, broadly ovate leaves are dark green with a slightly ruffled, gold margin and a trace of white between the center and margin. The white coloring needs the summer heat to develop.

Near-white, tubular flowers are produced from late summer through early fall.

HEIGHT: 26in

SCAPE HEIGHT:
36-40in

SPREAD: 36in

BLOOM TIME:
Late Summer - Early Fall

HARDINESS: Z3-9

AVAILABLE SIZES:

- 20ct & 72ct plugs
for Summer 2011
