

Hosta 'Wheee!' PPAF

Imagine a little girl with long, curly locks twirling around on a merry go round, her hair waving in the wind. That's the visual I get when I think of the delightfully ruffled leaves of this fun new hosta.

Extremely ruffled, cream colored margins extend from the tip of each green leaf all the way down the petiole to the crown. This ruffled margin is evident even in the juvenile stage of the plant before vernalization. The leaves of this medium sized hosta are of excellent substance, making them slug resistant in the landscape.

Light lavender flowers appear atop purple scapes in midsummer.

Plant this small to medium sized hosta near the front of the border or in containers for best display.
