The #1 Plant Brand™

Evergreen
Candytuft is
finally available in
a color other than
white!

The large clusters
of purple flowers
blanket the foliage
in late spring. It
blooms considerably
later than white
flowered Iberis.

The outermost flowers in
each cluster are light lavender
and the innermost flowers are
deeper lavender, while the whole
cluster is dotted with tiny yellow
stamens.

Candytuft is a charming plant for perennial
gardens. Because of its drought tolerance, it
makes a great filler for crevices in walls or
between the stones of walkways. It is also
effective as edging or groundcover.

HEIGHT: 10-12in

SPREAD: 8-10in

BLOOM TIME:
Late Spring

HARDINESS: 4-9

AVAILABLE SIZES:

- 72ct plugs from
Summer 2011
- #1 Grade bare
root from Fall 2011
