

Panicum v. 'Cheyenne Sky' PPAF (Red Switch Grass)

Absolutely ideal for growing in decorative containers, this hardy Red Switch Grass is a close perennial substitute for Pennisetum 'Rubrum'. Measuring in at just 3ft (2ft before blooming), 'Cheyenne Sky' forms a tight, vase-shaped clump of blue-green foliage that begins turning wine red in early summer.

By late summer, nearly the entire clump is drenched in color and is topped by matching wine-red flower panicles held just above the foliage. It makes a dynamite specimen plant and is even more eye-catching when planted en masse.
